

QUALITY DECLARATION

The company TEKA INDUSTRIAL, S.A. which address is C/ CAJO, 17 - 39011 SANTANDER (SPAIN).

DECLARES:

That AISI 304 = 1.4301 stainless steel used in our sinks manufacturing process has a high resistance to the corrosion, in accordance with the information of our stainless steel suppliers (ACERINOX / THYSSENKRUPP) and of our experience in the manufacturing and commercialization of Stainless Steel Sinks at world level.

This resistance could be reduced in function of the final product use, including the chemical agents used for the sink maintenance and cleaning.

The sinks installed in housings or apartments near to the beach or marine atmospheres support the environmental corrosion properly, whenever they would be used putting into practice the use and cleaning recommendations that the manufacturer gives with the product.
